

Contents

Chapter 1: Programme for International Student Assessment - an Overview

Chapter 2: Test Design and Development (text), Tables and Figures

Chapter 3: Context Questionnaire Development

Chapter 4: Sample Design

Chapter 5: Translation

Chapter 6: Survey Operations

Chapter 7: Quality Control

Chapter 8: Survey Weighting (text), Tables

Chapter 9: Scaling PISA Data (text), Tables, Figures

Chapter 10: Data Management Procedures

Chapter 11: Sampling Outcomes (text), Tables

Chapter 12: Scaling Outcomes (text), Tables, Figures

Chapter 13: Coding Reliability

Chapter 14: Data Adjudication (text), Figure

Chapter 15: Proficiency Scale Construction

Chapter 16: Scaling procedures and construct validation of context questionnaire data (text), Tables

Chapter 17: Questionnaire Design and Computer-based Questionnaire Platform (text), Table

Chapter 18: Computer-based Platform

Chapter 19: International Data Products

Annexes

- Annex A: Item Pool Classification
- Annex B: Contrast Coding
- Annex C: Standard Errors of Means, Sample Sizes, School Variance Estimates and Other Sampling Outcomes
- Annex D: Mapping of ISCED Levels to Years
- Annex E: National Household Possessions
- Annex F: Final Distribution of RMSD Values Across Groups for Each Scale
- Annex G: Common and Unique Item Parameters in Each Domain, by Country and Language
- Annex H: New Procedures for PISA 2018 Population Modelling
- Annex I: PISA 2018 Technical Standards
- Annex J: The Development and Implementation of PISA: A Collaborative Effort
- Annex K: Uses and Reporting of Process Data
- Annex L: Equated P+
- Annex M: PISA 2018 Main Survey Design for Ultra-Orthodox Schools in Israel
